# The Dispensary of Hope – Orientation Webinar

Every Friday– 10:30 am CST

HOSTED BY: Dan Simpson – Chief Development Officer

In response to the national interest in the Dispensary of Hope's programs due to the growing demand for pharmaceutical access for unemployed, uninsured, and vulnerable patients, we offer a Semi-Monthly Dispensary of Hope Orientation, held every Friday, at 10:30am CST. This free Webinar event will last approximately one hour and will provide you with the basics you need to participate in the network, including answers to the following questions:

- **How did the Dispensary of Hope get started?**
- **How does it work?**
- **What types of organizations can participate?**
- **Are there any other requirements, other than uninsured and low-income, for patients to qualify?**
- **What meds are offered in each program?**
- **Is there an on-line system to help me order and dispense meds for full chain of custody tracking?**
- **How is the not-for-profit program funded? Is there a flat subscription option?**
- **How much saving can be realized through participation?**
- **How much ROI do hospitals stand to benefit?**
